GR- Water management

**Programme grant (with the allocation of the reserve)
€ 6.500.000**

**EEA Contribution:
€ 5.200.000**

**GR Contribution:
€ 1.300.000**

€ 50.000 is allocated for bilateral initiatives

GR- Water management

The Water Management Programme shall address the water management needs of particularly vulnerable areas and islands, with projects aiming at water saving and desalination

The actions taken will focus on application of innovative technologies and renewable energy solutions.

The Programme contains also a Small Grant Scheme targeting to civil society including NGOS

Priority will be given to bilateral partnerships offering added value

GR- Water management

(with the allocation of the reserve)

Outcome	Implementation modality	Call/SGS	Amount (€)
Outcome 1: Status of water bodies improved	Call for proposals: Output 1.1	Call 01.1	4.050.000
		Call 01.2	1.450.000
	Call for proposals: Output 1.2	Call 02	600.000
	Small Grant Scheme: Output 1.3	SGS 1	100.000

GR- Water management

- Outcome 1: **Status of water bodies improved**
- Output 1.1: **Water management solutions implemented**
- Open call 01.1: **€ 4.050.000**
- It was addressed mainly to islands and vulnerable areas
- Projects to be financed:
 - supply, implementation and operation of **water saving measures** (like telemetry systems in water grids) and
 - new **desalination units** – or renovation/increasing the capacity of old desalination units
- The proposed water management systems will be combined with **innovative technologies** and renewable energy solutions (**RES**)

Status of implementation – Output 1.1

Water management solutions implemented

- Open call 01.1 was published in December 2020, with a deadline for submission of proposals on March 26, 2021
- Number of submitted proposals: 8 (5 for desalination units and 3 for supply, installation and operation of new systems for leakage check - telecontrol/telemangement)
- Budget of submitted proposals(€) is about 8.000.000
- 4 proposals were rejected in the first evaluation phase (they did not meet completeness and eligibility criteria)
- We are in the second phase of evaluation for 4 proposals (with a total budget of about € 3.750.000) – 2 desalination units and 2 telemetries

Status of implementation – Output 1.1

Water management solutions implemented

Indicative action schedule

Open Call 01.1		Open Call 01.2	
DATES	ACTIONS	DATES	ACTIONS
December 2020	Publication of the open call	February 2022 (after approval of PA amendment)	Publication of the 2 nd open call
March 2021 - January 2022	Evaluation procedure	June 2022 - November 2022	Evaluation procedure
February 2022	Contract Signed	December 2022	Contract Signed
March 2022 - April 2024	Implementation	January 2023 - April 2024	Implementation

GR- Water management

- Outcome 1: Status of water bodies improved
- Output 1.2: **Specific measures related to Greece's Programme of Measures supported**
- Open call 02: **€ 600.000**
- Aims **to finance research** for good status of water bodies, which will provide data and solutions for the improvement of the status of the water bodies or improvement of water management

Status of implementation – Output 1.2

Specific measures related to Greece's Programme of Measures supported

- Open call 02 was published in November 2020, with a deadline for submission of proposals on February 11, 2021
- Number of submitted proposals: 12
- Budget of submitted proposals(€) is about 3.000.000
- 8 proposals were rejected in the first evaluation phase (they did not meet completeness and eligibility criteria)
- We are in the second phase of evaluation for 4 proposals (with a total budget of about € 950.000)

Status of implementation – Output 1.2

Specific measures related to Greece's Programme of Measures supported

Indicative action schedule

DATES	ACTIONS
November 2020	Publication of the open call
February 2021 - January 2022	Evaluation procedure
February 2022	Contracts signed
March 2022 - April 2024	Implementation

GR- Water management

- Outcome 1: Status of water bodies improved
- Output 1.3: **Knowledge of importance of water bodies with “Good Status” increased**
- Open call SGS 1: **€ 100.000**
- It will fund **awareness campaigns for pupils** highlighting the water problems and the importance of improving the status of water bodies
- Create **guidelines and best practice material** for water saving addressed to inhabitants and visitors

Status of implementation – Output 1.3

Knowledge of importance of water bodies with “Good Status” increased

- Open call 03 will be published soon

Indicative action schedule	
DATES	ACTIONS
December 2021 – March 2022	Publication of the open call
March 2022-July 2022	Evaluation procedure
September 2022	Contract Signed
October 2022-September 2023	Implementation
