ENERGY SOURCES AND SAVING

GR-Energy: Progress

The Goals Achieved:

- ✧ **Evaluation of Project Proposals:** PO CRES completed the evaluation of the submitted Proposals to the GR-Energy Open Call. ⇒ 13 Projects have been included for funding in the GR-Energy Programme (May 2021).
- ✧ **Inclusion Decisions:** The Final Ranking Table of Evaluated Proposals was approved by the Board of CRES (June 2021). ⇒ 13 Inclusion Decisions were signed by the Minister of Environment and Energy (July 2021).
- ✧ **Projects' Technical Datasheets and Agreements:** The Projects' Agreements have been signed between PO CRES and Project Promoters (August –September 2021).
- ✧ **Tenders' Preliminary Approvals:** PO CRES receives the subprojects' tender documents ⇒ all tendering procedures will be conducted as public contracts based on the legal framework. ⇒ The preliminary approval of the tendering procedure will be followed closely in accordance with the MCS at Programme level (October 2021-today).

GR-Energy: Next Steps

The Next Goals:

- ✧ **Completion of Subproject's Contracts:** A detailed review of the tender documents and the tender procedures will be carried out. ⇒ All projects will be pre-approved and contracts will be signed to initiate their implementation.
- ✧ **Monitoring of Project's Financial Scope:** PO CRES will check the payment claims of the Project Promoters and will check/approve the Statements of Expenditure submitted by the Project Promoters. ⇒ All the appropriate data will be recorded in the Monitoring Information System.
- ✧ **Monitoring of Project's Scope:** PO CRES will closely monitor the project's implementation based on the commitments and the desired indicators of each project. ⇒ Administrative and on-the-spot verifications will be organized to evaluate the progress of each project and provide guidance to overcome any difficulties.

Schedule
