The various components shall complement each other, and all contribute to the inclusion and empowerment of the Roma community in Katerini, through a combination of integrated housing, educational, health and employment measures.

Complementary measures, financed by national or EU ESF sources, shall include both necessary infrastructural developments (preparatory technical studies, construction of roads, connections to sewage, water and utility networks, landscape design, flood prevention etc.) and appropriate soft measures (regular on-site support by the local Roma Branch of the municipal Community Centre, providing assistance related to employment, education, mental and physical health etc.).

In addition to the purchase of new pre-fabricated housing units, the project shall support: a) the successful transition of all Roma family beneficiaries to the new social houses through complementary soft measures, and b) the sustainable integration of young Roma members of the beneficiary families in the local community, as well as inclusion in the social and economic fabric of Katerini (e.g. through supporting children to participate systematically in education, supporting young unemployed women and men to improve their vocational skills and access the local labour market).

The project shall include, inter alia, the following activities:

- Development of a local social housing complex consisting of 56 units (for 56 families), owned by the Municipality of Katerini which has provided the land where the housing complex will be developed;
- The installation of basic housing equipment, including, but not limited to, the following: household appliances, refrigerators, cookers, washing machines, air-conditioners, solar panels, etc.;
- Active, systematic and meaningful citizen participation, especially of Roma, as well as public administration at all levels of government, including regular consultation sessions with Roma families on the status of the housing and infrastructure development and support;
- Activities supporting the physical relocation of the 56 families to the newly constructed housing units;

- Complementary activities to support families in their transition to the new housing and to further support young Roma in their sustainable and longer-term social inclusion within the local community. These will include, inter alia, the following activities:
 - Capacity building of the Roma Branch in Katerini to ensure the effective delivery of support services and training;
 - The delivery of support services and training to Roma households to prepare them for housing relocation;
 - Study visits and exchanges between Greece and other countries to share good practices on Roma transition and integration;
 - Educational support activities, such as a study centre, tutoring, school transport, vocational training, and IT/internet access;
 - Cultural, sport and recreational activities to facilitate dialogue between Roma and non-Roma communities.

The EU Agency for Fundamental Rights (FRA) will provide, as the international partner organisation, technical expertise and assistance based on its experience in Roma social inclusion at local level, also in Greece. FRA will contribute to the design, development and implementation of activities aiming to engage Roma communities and/or their representatives in actions or measures aimed at tackling their social exclusion and/or the protection of their human and fundamental rights.
